What's in it for you the Entrepreneur?

Access to Finance Institutions

Cash flow is the lifeblood of any growing business, and entrepreneurs are always searching for ways to access more finance at the correct time. Although we don't provide funding ourselves, we provide access to a network of finance institutions that could provide you with the financing you need. Being on one of our programmes will increase your probability of accessing this finance. We create a fee-based success driven structure that is suited to you and your business's capability.

Access to Markets

We understand the importance of access to markets for growing entrepreneurial businesses. It is for this reason that we support and teach you to access corporate supply chains, government supply chains and more.

Business Guidance

Each of our entrepreneurs will be educated and mentored on strategy, finance, marketing, sales, and personal development, ensuring that you receive a high-quality experience and interaction that will help move your business to the next level.

Back Office Support

Small businesses need certain staff resources to grow, but aren't able to afford them or don't fully utilise their services to make it cost effective to employ them full time. In many cases, a small business will then do without a bookkeeper, which can have a negative impact on their business. As part of the programme, you have access to other products and services provided by BizzGroup such as a BizzBooks, bookkeeper or BizzAcc Accountant, BizzNet networking sessions and Bizzbrand etc. on fee-based structure that is suited to you and your business.

As a growing entrepreneurial business you will reach a stage when you'll require specialist services such as tax, human resources, legal etc. Many entrepreneurial businesses are unsure of who are the appropriate specialists to engage with that are cost effective and experts in their respective fields. We have put together various specialists for you, and they provide services to businesses on our programmes at special rates.

Entrepreneurial Learning

Successful entrepreneurs are lifelong learners, and are obsessed with obtaining information and skills that will unlock their entrepreneurial potential. We provide an approved and highly recognised practical learning curriculum for both you and your staff. The curriculum includes subjects such as entrepreneurship, marketing, sales, finance, and personal development – ensuring you have every opportunity to supplement your gaps and areas for growth.

The Bizzincubate Community

We know that the entrepreneurial journey can be very lonely, but as part of our community, you'll be in the perfect position to interact with other entrepreneurs; draw strength and inspiration from them, and them from you. In this environment, you can harness synergy and ensure that your business flourishes!
